

Loaner Graphing Calculators Melissa Bailey, Chabot College

The CARE Grant funds awarded to the Veterans Resource Center for graphing calculators has added much needed and utilized resource for our student veterans at Chabot College. Often the minimal funds provide to veterans for supplies does not allow for needed items such as the graphing calculator. We launched our tablet and graphing calculator program in the Spring with great response, checking out all our graphing calculators in the first semester.

Our student veterans truly appreciate the support and resources we are able to make available to them thanks to your support. The ability to provide additional resources in the VRC for our student veterans aids in their academic success during their time at Chabot and is what makes our VRC so great.
